

REQUIREMENT PROVIDER AGREEMENT

This agreement is made between the Requirement Provider and the Project Team for the development of the proposed software project titled:

Project Title: Argus – Flash Flood Alert System

The Requirement Provider will provide the necessary project information, domain knowledge, user needs, and other relevant details required for understanding the proposed system and will review and validate the information documented by the Project Team. The Project Team will accurately document the agreed project scope and develop the system based on the requirements established and approved during the subsequent requirements engineering process. Any significant changes to the agreed project scope will be discussed with the Requirement Provider and Project Team before implementation. Both parties agree to maintain effective communication and cooperation throughout the project.

Requirement Provider
